HERPETOLOGY TOUR (AMPHIBIANS AND REPTILES OF BULGARIA)

Day by day itinerary

Day 1

Arrival at Sofia airport and transfer to Melnik, about two and a half hours. Accommodation for the next four nights.

Days 2, 3 and 4

These three days we will spend exploring different sites – Kresna Gorge, Rupite, Kozhukh Hill. We will have short transfers. Beside the common species, here we expect to find also some rare species – **Syrian Spadefoot Toad, Yellowbelly Toad, Balkan Stream Frog, Kotschy's Gecko, Balkan Green Lizard, Erhard's Wall Lizard, Worm Snake, Dahl's Whip Snake, Leopard Snake, Four-lined Snake, Montpellier Snake, Cat Snake.**

We can also find both species of tortoises – **Hermann's and Spurthighed**, as well as the **Balkan Terrapin.**

Day 5

Today we have long transfer (about four hours) to our next hotel in Smolyan, in the Western Rodopi Mountain for two-nights stay. We will have a few stops on the way. Late in the afternoon we arrive in the hotel.

Along the road we expect to see some mountain species – **Fire Salamander, Alpine Newt, Spring and Common Frogs, Slow Worm, Sand Lizard, Viviparous Lizard, Aesculapian and Smooth Snakes, Adder.**

Day 6

A day at Smolyan Lakes and high mountain zone of the Western Rodopi Mountains.

Today we expect to see some common and mountain species – **Fire Salamander, Alpine Newt, Spring and Common Frogs, Slow Worm, Sand Lizard, Viviparous Lizard, Aesculapian and Smooth Snakes, Adder.**

Day 7

Today we have long transfer (about three and a half hours) to the town of Haskovo, in the Eastern Rodopi Mountain. We will have a few stops on the way. Late in the afternoon we arrive in the hotel, which will be our base for the next three nights.

Days 8 and 9

These two days we will explore different sites in the area – near Harmanli and Mandritsa Village. The species we can see here are **European Glass Lizzard, Snakeeyed Lacertid, Worm Snake, Sand Boa, Dahl's Whip Snake, Blotched Snake, Montpellier Snake.**

HERPETOLOGY TOUR (AMPHIBIANS AND REPTILES OF BULGARIA)

Day 10

Transfer to our next hotel in Strandzha Mt.

We will stop close to the Turkish border where we expect to see **Worm Snake, Sand Boa, Dahl's Whip Snake, Blotched Snake, Montpellier Snake**. Arrival late in the afternoon. Accommodation for one night.

Day 11

Short transfer to the Black Sea coast - Primorsko.

Again we will have several stops on the way in Strandzha Mt (Strandzha Nature Park) and will look for reptiles and amphibians, especially **Snakeeyed Skink, Meadow Lizard, Aesculapian Snake** and some other species. Arrival late in the afternoon. Accommodation for the next three nights.

Days 12 and 13

Both days we will explore the South Black Sea coast. We will make short trips every day. We will visit also Maslen Nos peninsula, Ropotamo river, as well as the sand dunes near Arkutino. This is the only area where the **Reddish Whip Snake** occurs in Bulgaria. We can have another evening trip looking for the **Syrian Spadefoot Toad**. Some other species we hope to see – **Firebellied Toad, Snakeeyed Skink, European Glass Lizard, Kotschy's Gecko, and Blotched Snake**.

Day 14
